

# Protect Against Cyber Threats With CBIZ MXDR Services Powered by SentinelOne

## Cybersecurity Right-Sized for Your Business

As a Registered Investment Advisor (RIA), you're required by SEC Regulation S-P to report cybersecurity incidents impacting your clients and investors. To meet this standard, your firm must be capable of detecting and responding to a cyber-attack. Governments and large organizations around the world employ dedicated cybersecurity teams to monitor and detect malicious activity in their networks and systems 24x7. CBIZ Managed Security Services powered by SentinelOne delivers enterprise level capabilities to protect your business — *without the expense of an in-house cybersecurity team.*

- ✓ 24/7 Protection
  - » Your business is continuously monitored around the clock by cybersecurity experts who detect and stop threats — so you don't have to.
- ✓ Complete Managed Extended Detection & Response (MXDR)
  - » Protects your endpoints, cloud, network, identity and access management, email, and more, offering greater visibility for investigations and detection efforts supporting a proactive security response.

- ✓ AI-Powered Threat Response
  - » Industry-leading threat intelligence allows your organization to stay ahead of emerging threats. The AI-driven SentinelOne Security Information & Event Management (SIEM) platform continuously learns and adapts to new threats, providing real-time detection and response.
- ✓ AI + Automation
  - » Leverage the actionable insights provided by AI-driven detection with hyperautomation for autonomous protection under the oversight of our Security Operations Center (SOC) team.
- ✓ Accelerate Incident Response
  - » We accelerate incident response with automated playbooks leveraging the capabilities of the SentinelOne AI SIEM to support fast, consistent, and effective responses.
- ✓ Compliance Support
  - » Easily meet compliance related cybersecurity requirements with automated reporting and compliance support.

CBIZ's managed security services provide enterprise-grade cybersecurity, without the enterprise cost or complexity, **for less than \$40 per user per month.**

## Take the Next Step

Protect your business with CBIZ's turnkey managed security services — because in today's threat landscape, prevention isn't enough. Contact your CBIZ representative to discuss your security needs and get started today!
